The User Support Service

If you are going to submit a proposal to the LNS PAC or to prepare your setup for an experiment, and need information and/or support from the LNS services please contact the following people:

For information concerning possible available beams and their characteristics contact
Dr. Danilo Ruggiato
Head of the Accelerator Division

For information concerning radiation protection and safety procedures contact
Mr. Salvatore Russo
Responsible for the Radioprotection Service

For Guest House booking contact
Mrs. Giovanna Ruggieri

For problems concerning

- a) Target Laboratory (possible available targets, thin films, chemistry support...)
- b) Electronics (use of modules from LNS pool, detector test laboratory, support for electronic problems)
- c) Experimental Setup Preparation (vacuum problems, mechanics, power needs...)
- d) Computing access to LNS network, use of LNS data acquisition system
- e) Any other topic not mentioned so far

contact
Dr. Pierpaolo Figueroa
Responsible for the User Support Service
(please try to separate points (a) to (e) in your request since it may need to be internally readressed to different people)

Done

The new radiochemistry laboratory for ^{210}Po sources production started to be operative

Joint effort :
LANDIS, target laboratory, radioprotection service, mechanical workshop

Following the user requests 2 small laboratories are now available for experimental setups preparation...

We wish to satisfy as many users as possible...

We need your suggestions.
